

NOTICE OF STREET WORK
2015-16 STREET RESURFACING PROJECT
City of Daly City, Department of Public Works, July 7, 2015

DEAR RESIDENTS AND BUSINESS OWNERS:

The City of Daly City is pleased to inform you that portions of several City streets are scheduled for repair and repaving by the City's contractor, MCK Services Inc., starting July 2015 through September 2015. The limits of the street paving work are shown on the reverse side of this notice. Exact dates of construction work will be posted at least 48 hours prior to the street work.

Notices posted on street barricades will show the anticipated dates and hours of street work

Construction Activity: MCK and its subcontractors will be performing pavement repairs, grinding the pavement surface, and overlaying the street with a new layer of asphalt concrete. Work will include associated tasks such as utility box and manhole frame and cover adjustments and pavement striping and marking installation. Construction work hours are from 8:00 a.m. to 5:00 p.m.

Parking Impacts: **No parking** will be allowed on streets on days of certain construction activities. Dated "No Parking" signs will be posted at least 48 hours in advance of these days so you can relocate your vehicles. **Vehicles parked on the street during the posted hours will be towed when work starts.** Although you may not see the work start until later in the day, please do not park on the street when dated "No Parking" signs are posted. Driveway access will be provided.

Rescheduled Work: Work on your street may be postponed due to inclement weather or equipment breakdown. The "No Parking" signs will be removed and you will be provided notice prior to the rescheduled work dates.

Traffic Impacts: Traffic will be affected on project streets at various times during construction. Traffic controls will be in place for through traffic. Emergency vehicles will not be delayed.

Questions: If you have any questions regarding construction, please call John Moffat with MCK at (925) 957-9200.

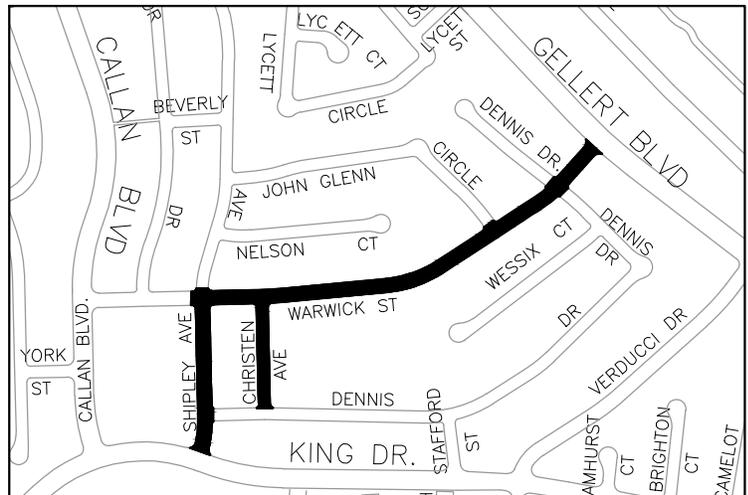

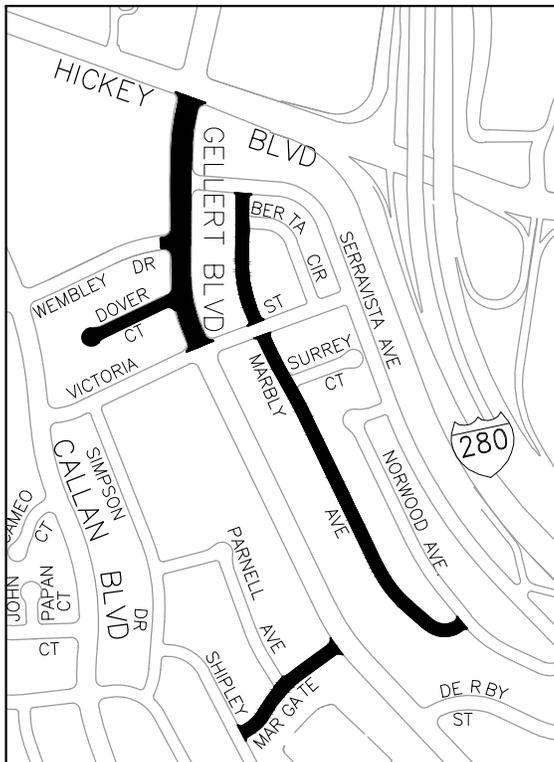

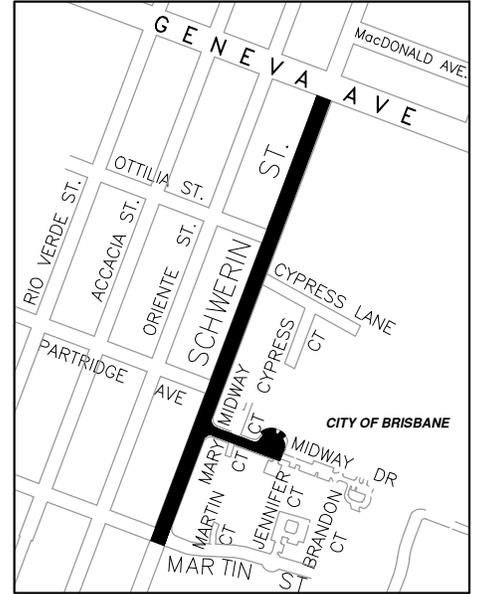

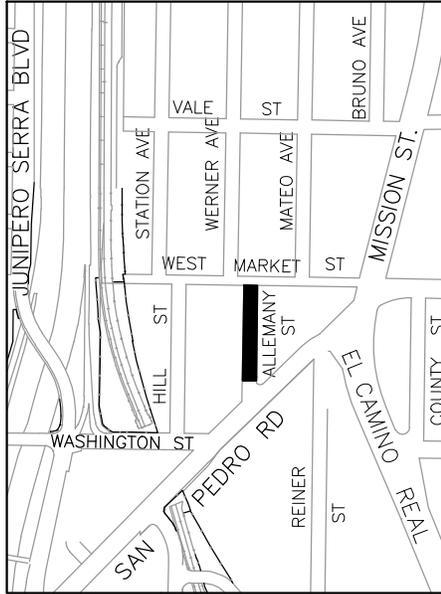

Your City Contact: If you require any special attention, for instance due to a disability, or have project related questions, please call Roland Yip, Civil Engineering Associate, at (650) 991-8155.

**THANK YOU FOR YOUR PATIENCE WHILE
WE MAKE IMPROVEMENTS TO OUR COMMUNITY!**
