

# UPCOMING COMMUNITY MEETING

**Thursday, January 21st**  
**8pm - 9pm**

Got questions about your new residential waste collection services? In the first hour from 7-8pm, join us for a community meeting about the exciting changes to your residential Recycle, Compost and Garbage curbside collection services starting February 1. Staff from Republic Services, the City's waste hauler, will give an overview of the new food waste collection and answer any questions you might have. Coffee and snacks will be provided.

From 8-9pm, come learn about a potential program that would offer new energy options, including more renewable energy at competitive rates. Peninsula Clean Energy is the name given to the potential Community Choice Energy (CCE) program in San Mateo County. If formed, electricity customers in the County would be able to choose between Peninsula Clean Energy and PG&E as their electricity purchaser. Peninsula Clean Energy customers would receive multiple electricity options, each with a different amount of renewable energy content, at prices competitive with PG&E.

At this workshop, County staff will introduce the concept of CCE, discuss why the County is exploring CCE, and explain how the formation of Peninsula Clean Energy may affect your household or business. It will also include an interactive portion, where local residents and business owners can provide their input on this potential program.

This event is free and open to residents and business owners from throughout San Mateo County with any level of knowledge about electricity or CCE.

For questions on CCE, please contact Kirsten Pringle at [650-363-4088](tel:650-363-4088) or [kpringle@smcgov.org](mailto:kpringle@smcgov.org).

For more info on curbside collection services, email [infodalycity@republicservices.com](mailto:infodalycity@republicservices.com) or call [650-756-1130](tel:650-756-1130).

For more info on sustainability initiatives in Daly City, please contact Sustainability Coordinator, Stephen Stolte at [ssolte@dalycity.org](mailto:ssolte@dalycity.org) or [650-991-8126](tel:650-991-8126).

## Workshop Location:

City of Daly City  
Council Chambers  
333 90th Street  
Daly City, CA 94015

Light refreshments will be served.
