

Peninsula SunShares

Solar. Simple. Together.

Thinking about installing solar on your home but don't know where to start or think it's just too expensive?

Peninsula SunShares is here to help!

Benefits:

- **Simple: qualified installers chosen**
- **Discounted: 15% below market rate**
- **Options: range of financing and equipment choices**

This spring thirteen neighboring communities throughout San Mateo County and Palo Alto are partnering with local nonprofit Vote Solar to launch a solar group discount program for homeowners.

Peninsula SunShares pools the power of individual participants to get more competitive pricing from solar companies - with an additional incentive that provides even better savings as more people contract for solar on their homes.

The program relies on a community outreach and education effort that engages groups like PTAs, neighborhood associations, local employers, municipal leaders, and grassroots volunteers. More participants means a better deal for you and more solar power for the Bay Area, please help spread the word!

Here's how it works:

1. Community-sponsored. Peninsula SunShares wants to make it easy for Bay Area residents to see if their home is right for solar. Sign up to schedule a no cost, no obligation site visit today.
2. Below market pricing. Get your discounted solar installation price quote from the programs pre-selected solar installers.
3. Limited time. Sign a contract by July 31st to have your new solar panels installed and save on your monthly electric bill for years to come.

For more information on upcoming workshops or to sign-up please visit:
