A Fire Department Public Safety employee temporarily assigned the duties of another position, not vacant, in excess of 5 Fire Department shifts, whether or not consecutive, shall then receive his/her permanent salary or the salary of the temporary assignment, whichever is greater.

Fire personnel are required to qualify on a one-time-only basis for each classification assigned.

C. Paramedic Assignment Program

1. Paramedic Assignment Pay

Affected employees assigned by the Department as Paramedic shall receive Paramedic Assignment pay (Paramedics who elect not to participate in the Paramedic Assignment Program shall not receive paramedic assignment pay) as follows:

Effective August 1, 2005: 10% of top step of Firefighter Engineer salary

The Fire Chief may temporarily suspend Paramedic Assignment Pay if an employee is absent for more than thirty (30) consecutive calendar days for a non-industrial injury or illness, or a leave of absence excluding paid vacation leave. Upon return to work, an employee shall be returned to paramedic assignment status provided that the employee has maintained current paramedic certification during the period of absence.

Personnel who are assigned to the program must be available for assignment, however, may petition the Fire Chief to be removed from the program. No one assigned to the program may be released from his or her commitment unless a paramedic replacement is available. Possession of and maintenance of all licenses and certifications required of a paramedic must be maintained as a requirement for those personnel assigned to the Paramedic Program while the program is in effect. No paramedic-certified personnel may withold provision of paramedic services regardless of whether assigned to the Program or not. Personnel assigned to the program who are subsequently promoted shall be released from the Paramedic Assignment Pay Program at the employee’s option.

2. Paramedic Program Eligibility

For Paramedic Assignment Pay, the City will utilize an assignment-basis program to staff the Paramedic Program. An assignment-basis program is defined as an established number of personnel delivering paramedic-certified medical services on an assigned basis by the Fire Department as opposed to delivery of EMT-1 medical services as required for affected classifications. It is understood that the term EMT certification shall be defined as being EMT-1 (intubation) and/or changes made within this certification shall be as approved by the State of California and County of San Mateo. The number of assignment opportunities will be determined by the City.

3. Paramedic Certification

It is the responsibility of the assigned paramedic to maintain current certification at all times as directed by the County of San Mateo Health Officer, State Medical Services Authority, and any other local, state or federal regulation.
The City shall reimburse paramedic-certified personnel for the State and County licensing and certification fees. Personnel who hold paramedic certification and are available for assignment shall receive reimbursement for costs of reissuance of paramedic license.

The City shall pay the costs related to continuing education which may be required for paramedic-certified personnel to maintain their paramedic certification. The Fire Department Training Division shall provide as much in-house training, continuing education, and other training as is financially and technically feasible.

While the City will make an effort to provide training during on-duty time, compensation and travel expenses will not be provided for any off-duty training attended by personnel seeking to obtain qualification, certification, and required continuing education to be a paramedic.

4. Staffing

The authorized staffing level for the City of Daly City Paramedic Program shall be the minimum as required to comply with the provisions established by the County-wide ALS-Paramedic JPA. All paramedics designated by the Daly City Fire Department shall receive Paramedic Assignment pay.

a. It is agreed that every effort will be made by the Fire Department to have “new” paramedics ride along with experienced paramedics. If this cannot be accomplished, then two (2) new paramedics may be placed together for a training period at the discretion of the Fire Chief. Length of such training period shall be determined by the Fire Chief.

5. Vacation, Trades, Other Leave, Overtime

Personnel assigned to the Paramedic Program shall choose their annual vacation leave in accordance with established Fire Department procedures, provided that a certified paramedic is available to cover for the time off requested. However, only two assigned paramedics per shift shall be authorized to take vacation leave at a time.

Subject to approval by the Fire Chief, personnel assigned to paramedic duty may trade shifts with other paramedic personnel who hold the same classification provided the daily staffing for available paramedics is met. Maintaining daily staffing needs as a result of unscheduled absences will occur in the same manner to maintain paramedic levels.

In most cases of Overtime, there should not be a change in the way that the overtime rotation is presently administered. A potential exception would be if the need for overtime must be filled by a certified paramedic to meet staffing requirements. In those cases, the Fire Department will make the overtime available to the first eligible paramedic-certified employee. If a paramedic is called in on overtime to fill a non-paramedic position, such employee may be utilized as a paramedic should the need arise. If a paramedic-certified employee who is not currently assigned to paramedic duty is utilized as a paramedic, such employee shall receive overtime compensation at an hourly
rate reflective of the Paramedic Assignment Pay for the actual time assigned and working in a paramedic capacity.

APPENDIX B - MODIFIED WORK (LIGHT DUTY)

CITY OF DALY CITY - MODIFIED WORK (LIGHT DUTY)

Assignments for Injured Employees

Policy: It is the goal of the City of Daly City to provide a safe working environment for all employees and to maintain an effective and efficient program for the provision of workers' compensation benefits. To assist in such efforts, the utilization of light duty assignments will be encouraged wherever practicable.

Purpose: To provide for the return to work of both industrially and non-industrially injured and/or ill employees in a capacity consistent with a disability temporarily precluding the affected employee from the performance of the employee's full and normal duties but not limiting the employee totally such that productive assignments can be performed by the employee without fear of aggravating the injury. Modified duty including modified work schedules may also be considered for employees on pregnancy disability.

Procedure:

1. An employee must have incurred an injury or illness which incapacitates him or her from performing the full duties of his/her job as set forth in the job description. Such disability must be confirmed in writing by a physician licensed to practice medicine in the State of California.

2. Treating physicians shall be supplied with the following:

APPENDIX C - GRIEVANCE PROCEDURE

DALY CITY FIRE DEPARTMENT

GRIEVANCE PROCEDURE

DEFINITION

A grievance is defined as a condition that exists as a result of an unsatisfactory adjustment or failure to adjust a claim or dispute by an employee or employees relative to the application or interpretation of the Rules and Regulations of the Classified Service, Departmental Rules and Regulations, Memorandum of Understanding, established procedures and policies of the City or Department (whether written or oral) of a dispute, disagreement or omissions as to the facts pertaining to a disciplinary matter.

The following shall not be considered a grievance: The means, manner, method or merit of any service or activity provided by law or executive order, collective issues of salary, fringe benefits or working conditions subject to meeting and conferring; and disciplinary action and those areas covered by Paragraph 2 or 3, Chapter 16 of the Rules and Regulations of the Daly City Fire Department.

No matter shall be considered a grievance or complaint until it is first taken up verbally by the employee and/or a representative of his/her choice with his/her immediate supervisor. (In those situations where the nature of the problem involves the immediate supervisor or higher, the problem will be discussed with the next higher rank.)

All grievances shall proceed in accordance with the following:

Step A: An employee who believes that he/she has a grievance shall take up such grievance with his/her immediate supervisor within 24 calendar days of the occurrence of knowledge of the alleged grievance. If the employee fails to do so within such time limit, the alleged grievance may not thereafter be taken up.

The supervisor with whom the problem is discussed shall give a reply within five (5) calendar days. If the aggrieved is not satisfied with the decision, the following step will be taken.

Step B: The grievance may be reduced to writing and submitted to the next higher level of command. The officer that receives a grievance will make every possible effort to resolve the problem through discussion with the aggrieved and/or his or her representative, other persons involved, investigation of all the facts, etc., and shall submit a written decision to the aggrieved within five (5) calendar days of receipt of the written grievance. If upon the receipt of the written decision, the aggrieved takes no further action within five (5) calendar days, the grievance will be assumed to be settled. If the aggrieved feels that the decision does not resolve the problem, he/she may proceed to Step C.

Step C: The aggrieved shall submit a copy of the written grievance along with a copy of the written decision and/or other pertinent facts, to the next higher level of command. The
same procedures as outlined in Step B, including the five (5) calendar day time limit, will be followed at this level of appeal. If the problem is not resolved, Step C, including the five (5) calendar day time limit, may be repeated up each succeeding step in the chain of command until the Chief of the Department receives the grievance. The Chief of the Department will render a written decision on the grievance within five (5) calendar days. If at this point the aggrieved feels that the grievance has not been resolved, the aggrieved may appeal the decision of the chief to the next higher authority as outlined in the Rules and Regulations of the Classified Service and/or Memorandum of Understanding.

Step D: Within seven (7) calendar days after receipt of the grievance by the next higher authority (City Manager), there shall be a meeting between the aggrieved employee and/or the Union Business Representative and the City Manager or his/her representative, in an attempt to settle the matter. Within five (5) working days following such meeting, the City Manager shall make a written reply to the grievant.

Step E: If the grievant has not been settled by the procedure described, the grievant may within seven (7) calendar days be submitted to the Daly City Personnel Board, if eligible under the Rules and Regulations of the Classified Service in accordance with Step F below; OR to advisory arbitration in accordance with Step G below, but may not do both.

Step F: The Council shall act upon the recommendation of the Personnel Board within thirty (30) calendar days following the date of their receipt of the recommendation.

Step G: Advisory Arbitration. If the grievant is dissatisfied with the decision of the City Manager in Step D, the grievant may appeal the grievance to advisory arbitration.

The request for advisory arbitration must be given in writing to the City Manager by the grievant within ten (10) working days from the date of the Step D answer.

An arbitrator may be selected by mutual agreement between the grievant’s representative and the City’s representative. Should the representatives fail to mutually agree on a arbitrator, they shall make a joint request to the California State Conciliation and Mediation Service, the American Arbitration Association, or some other source mutually agreed upon, for a list of five (5) qualified arbitrators. The parties shall each strike two (2) names from the list and the remaining person shall be accepted as the arbitrator. The first party to strike shall be determined by the flip of a coin.

The jurisdiction and authority of the arbitrator so selected and the opinions the arbitrator expresses will be confined exclusively to the interpretation of the express provision or provisions of the MOU or Rules and Regulations of the Classified Service at issue between the parties. The arbitrator shall have no authority to add to, subtract from, alter, amend, or modify any provisions of the MOU or Rules and Regulations of the Classified Service or impose any limitations or obligations not specifically
provided for under the terms of the MOU or Rules and Regulations of the Classified Service.

The arbitrator shall be without power or authority to recommend any decision that would require the City or the administration to do an act prohibited by law.

The fees of the arbitrator will be born equally by the employee or employee association and the City. However, the City will reimburse up to $15,000 towards the Firefighters Association cost of arbitration in cases where the City Council goes against the advisory recommendation to the detriment of the employee or Association.
APPENDIX D – SHIFT TRADE

Daly City Fire Department

SHIFT TRADE

The responsibility for working a shift is that of the person who is scheduled to work on that shift. When another employee agrees to work the shift trade (via the Shift Trade Form), he/she assumes the assigned obligations to work, but not the liability for the shift or time.

It is agreed that shift trades may only be paid back by exchange of time worked and shall not be paid back by payment of money or any consideration other than time. Any employee(s) violating this provision shall be subject to forfeiture of the right to trade shifts for one year.

Should an employee who agreed to work a shift or a fraction of a shift be unable to do so, the person who was scheduled to work that time is charged for any lost time to the City.

An employee unable to fulfill a trade agreement, for any reason, must contact both the duty Battalion Chief and the person originally scheduled to work the shift or partial shift.

When the person who initiated the trade is contacted, the trade will be cancelled and he/she will work the shift or provide another trade.

If contact cannot be made, any time lost or overtime incurred will be charged to the person originally scheduled to work. Repayment of time is to be made as follows:

Working the time, hour for hour, within the limits of the same "work time period" as indicated on the time work sheets, (avoiding impacting FLSA time), at a time determined by Fire Administration.

Should an employee not be able to repay the time during the same work time period, the employee's vacation accrual shall be charged or compensatory time accrual.

Shift trades may be permitted under the following rules:

A. All requests for shift trades must be made no less than 48 hours in advance. All requests must be approved by the supervisor on whose shift the trade will be performed. Should the Company Officer be unavailable, the Battalion Chief's office may approve the trade.

B. Exchanges shall be of comparative status: Firefighter for Firefighter; Engineer-Operator for Engineer-Operator; Captain for Captain.

C. Shift trades shall not be requested more than 90 days in advance. Should there be a personnel schedule change after the request is submitted, whereby personnel are moved from one shift to another and the trade cannot be performed, the shift trade becomes null and void. Shift trades are subordinate to any and all personnel changes or transfers, and the person requesting the trade is responsible for any time lost to the City. Time lost due to oversight or mistakes made by
D. Personnel requesting shift trades will provide early relief for the person who is to work the trade, should that person be at a different station on the shift prior to the trade.

E. No employee shall pay money to another employee in exchange for a shift trade, and shift trades shall be paid back within 360 days. In the event of a promotion of an employee to a higher rank, such employee shall pay back all shift trades owed in the lower rank within three (3) months following such promotion.

F. All shift trades are to be recorded in the Company Journal of the Station in which the trade takes place, on the actual date of the trade.

G. Personnel submitting four or more consecutive trades shall obtain the approval of his/her immediate supervisor and the approval of the Shift Battalion Chief.

H. Probationary Firefighters are strongly discouraged from requesting shift trades because it is important they receive all the necessary training, both scheduled and unscheduled, available to them on shift.

Should a probationary Firefighter need a Shift Trade, the following rules apply:

1. A probationary employee shall be entitled to a maximum of five (5) Shift Trades, whether they are full shift or partial shift during the 18-month probationary period, (five full shifts equals 120 hours). No combination of Shift Trades may exceed a 120-hour bank, and each trade will be deducted from the 120-hour bank.

2. Exception to the five shift limit: A partial Shift Trade of two to five hours occurring after 1700 hours will not be charged against the five shift maximum. It will, however, be charged against the bank of 120 hours for the probationary Firefighter.

3. When either five Shift Trades or 120 hours have been accumulated, the probationary Firefighter will have reached the limit and no further Shift Trades will be allowed for the balance of the probationary period.

While assigned to the Fire Prevention Division on a 40-hour work week during the probationary period, the employee may work for another employee outside the regular Division hours (subject to the maximum above) but not have other employees work for him/her.

During the 2007, negotiations between the City of Daly City and the Daly City Firefighters' Union Local 1879 the parties discussed and mutually agreed upon a methodology change when surveys are conducted by the City.

The parties agreed that when the City conducts its survey the City will develop a composite rate for each agencies medical insurance contribution. The composite rate will be determined in the following manner:

- The City of Redwood City/ City of Burlingame represented fire employee (Firefighters/Engineers/Fire Captains) census data will be used to determine the number of employees at each level (employee only, employee plus 1, and employee plus 2 or more).

- This census data will be applied to an agency which has tiered contribution rates.

The agencies composite rate will be determined in the following manner:

- # of employee only x employee rate
- # of employee plus one x employee plus one rate
- # of employee plus 2 or more x employee plus two or more rate
- Total of employee only, employee plus one and employee plus 2 or more
- Composite rate equals total of employee only, employee plus one and employee plus 2 or more divided by the respective number of employees at each level.

Department Policy  
Temporary Suspension of California Driver License  

October 5, 2009  

The possession of a valid Class C California Driver's license (and possession of a Class B license within 18 months of hire) is a minimum qualification and a condition of employment for the Firefighter, Fire Engineer Operator and Fire Captain classifications. No employee shall operate a vehicle in which they do not have a current license. Any employee whose driving privileges are suspended shall notify the on-duty Battalion Chief and or Fire Chief as soon as possible, but no later than 24 hours prior to returning to work.  

An employee whose driving privileges are temporarily suspended by the California Department of Motor Vehicles and who is eligible for reinstatement within 12 months of the date of suspension may be eligible for the following accommodations:  

Firefighter and Fire Captain Classifications  
- The employee will continue to operate in their classification and will be reduced 2 steps until the DMV reinstates their Driver License.  

Engineer Operator Classification  
- The employee shall be temporarily reassigned to Fire Fighter classification until the time they regain their drivers license at which time they will return to their original classification. The employee temporarily reassigned to firefighter will be eligible for the appropriate step based on number of years in the department. (i.e. 4 years in department would be eligible for 4th step.) On return to their original position, the employee will be assigned the step in which they were assigned prior to the temporary reassignment.  
- If the Driver’s license suspension resulted from a conviction or plea of no contest for driving a motor vehicle while under the influence of drugs or with an illegal blood alcohol content, the Fire Chief may approve a reasonable period of time for the employee to complete a rehabilitation program assigned by the Department of Motor Vehicles and/or Court. The Fire Chief may terminate the temporary reassignment if the employee has not completed the rehabilitation program within that period of time.  

Nothing in this policy changes the City’s right to implement disciplinary action consistent with City rules for actions associated with the temporary suspension of a California Driver License.
