Scams/Other

“Google Doc Phishing Scam”

This just started circulating on the internet, and it is worth mentioning. If you receive a link to a Google doc, you may want to do some investigating before clicking on the link. According to “Business Insider”, it will appear as if a contact of yours sent you a Google doc. If you click on the “open in docs link”, it will send spam to “everyone you’ve ever emailed” with a similar phishing e-mail. Google is aware of the problem and is investigating it.

Nextdoor.com

Nextdoor.com is a free private social networking website for your neighborhood. This private network ensures that only those who live in your neighborhood can join; users must go through a verification process. Neighbors ask each other for business recommendations; help in locating missing pets; discuss relevant local government issues; or connect for other reasons. It is very easy to sign up, and I like the fact that the site verifies users by addresses, and it won't allow people to access to a

neighborhood if they don't actually live there. Please note: the City of Daly City and/or the Police Department cannot see what residents post—we are only allowed to post information. There is also a mobile application, or you can have it sent to your e-mail. Give it a try! www.nextdoor.com
