Scams/Other

Computer scam

A 72-year old Daly City resident/victim said on Tuesday, 08-23-20, he received a call from someone who identified himself as a Microsoft worker who said his home computer had been compromised. The victim said he did not need any assistance and hung up the phone. Approximately 10 minutes later, the subject called back and said all of his accounts were compromised, and he was there to help him. The victim said the caller prompted him to do a series of functions on his keyboard in order to allow him access. The caller told the victim not to touch his computer for a few hours so he could “work” on it. A few hours later, the caller requested to be paid for his work. The caller told the victim to obtain a Target gift card. Once the caller received the gift card, he told the victim he needed an additional \$500. The victim lost \$1,000 before he realized he was scammed.

Nextdoor.com is a free private social networking website for your neighborhood. This private network ensures that only those who live in your neighborhood can join; users must go through a verification process. Neighbors ask each other for business recommendations; help in locating missing pets; discuss relevant local government issues; or connect for other reasons. It is very easy to sign up. I like the fact that the site verifies users by addresses, and it won’t allow people to access to a neighborhood if they don’t live there. Please note: The City of Daly City and/or the Police Department cannot see what residents post—we are only allowed to post information. There is also a mobile application, or you can have it sent to your e-mail. Give it a try! www.nextdoor.com
