## WELL PERMIT APPLICATION

Based on information on the application and attachment hereto (if any) and subject to approval, permission is hereby granted to construct/repair/abandon the described well. Permission to start may be withheld until a field check verifies all statements made on application by Permittee and is subject to the General and/or Special Conditions.

### WELL LOCATION (Draw Accurately)

1. Sketch well location to scale, showing dimension to nearest foot.
2. Show a minimum of two dimensions at right angles. Dimensions shall be from the centerline of the closest named streets, roads or highways.
3. Show distances to all sewers and laterals, septic tanks, leach fields, property lines, proposed or existing building foundations and adjacent wells in your and adjacent property.
4. Show any topographic features.
5. Each proposed well site requires a separate plot plan, as per above.

### GENERAL CONDITIONS

1. A minimum of 48-hours notice must be given prior to drilling, pouring the annular seal, conducting a pump test and well abandonments. Violation of 48-hour notice shall result in the permit being void, data not being accepted and possible legal action taken against driller, agent or owner.
2. Well construction or abandonment under this permit is subject to any instructions issued by the Department of Water and Wastewater Resources relative to Bulletin 74-81/89.
3. Permit may be voided before work begins if a field check reveals any misrepresentation under "well location" or topographic features on applications.
4. **This permit is valid for six months after the date of its issuance and only for the purpose specified herein.** No change in construction procedure will be allowed except upon written permission of the City.
5. Permittee shall assume entire responsibility for all activities and uses under this Permit and shall indemnify, defend and save the City of Daly City and the North San Mateo County Sanitation District, its officers, agents and employees free and harmless from any and all expense, cost or liability in connection with or resulting from tile exercise of this Permit, including, but not limited to property damage, personal injury and wrongful death.
6. Compliance with Cal-OSHA, California Labor Code Section 6300ff, is required.
7. Driller is to complete State DWR Form 188 and mail original to Department of Water and Wastewater Resources within 30 days of completion of well construction.
8. For all well construction, renovations, abandonment, etc., services must be performed by a licensed C-57 driller.
9. Dry holes shall be backfilled within 24 hours of drilling. Well abandonment shall be done in accordance with Bulletin 74-81/89.
10. Well Drillers must submit proof of Workers' Compensation upon application for permit.
11. Well Drillers must obtain City of Daly City Business License prior to applying for permit.
12. Driller/agent must submit pump test data and water quality tests to Department of Water and Wastewater Resources within 30 days of completion of tests.
13. Analytical results of all soil and groundwater samples collected during the execution of drilling under this permit must be submitted to San Mateo County Environmental Health by the responsible professional within sixty (60) days of sample collection. If contamination is discovered during drilling, verbal notification to County {toll free @650-573-2222} by the responsible professional is required within seventy-two (72) hours of discovery.
14. **Before work is completed, all USA markings must be removed and cleaned as a requirement in the City of Daly City Standard Specifications and Drawings. Best Management Practices relating to storm system must be followed when cleaning the markings. Pls. call (650) 991-8200 a day before to schedule an inspection.**
