City of Daly City C&D Waste Management Plan

C&D WASTE MANAGEMENT PLAN REQUIREMENT

A C&D Waste Management Plan (WMP) is required for all covered projects exceeding \$30,000 in value to demonstrate maximum reuse and/or recycling of debris and other waste generated during demolition, new construction, roofing, landscape, and other construction projects. The applicant is responsible for ensuring Daly City's recycling requirements are met for all waste generated on site, including waste generated by contractors and subcontractors.

The WMP must be completed, submitted for review and approved, prior to permit issuance. Separate WMPs must be completed for demolition and construction at the same site, if separate permits are required.
