ENVIRONMENTAL EVALUATION FORM

EIR No. _____
Date _____

This form is to be completed for all projects which are not deemed exempt from the requirements of an Environmental Impact Report. Its purpose is to enable the Planning Commission to evaluate and determine if a proposed project may have a significant effect on the environment. If any of the effects of a project may have a substantial adverse impact on the environment, regardless of whether the overall effect of the project is adverse or beneficial, then an environmental impact report must be prepared where discretionary governmental action is involved.

I General Information

- A. Name and address of applicant: _____

- B. Name, address and telephone number of person to be contacted concerning this application:

- C. Location of project: _____
Street Address and Assessor's Block and Lot No.
- D. Existing Zoning District and use of site: _____

- E. Proposed Zoning District and use of site: _____

- F. List and describe any related permits and other public approvals required for this project, including those required by city, state, regional, and federal agencies: _____

- G. Is this project part of another project which has already been approved through the filing of an Environmental Evaluation Form and/or Environmental Impact Form? If so describe the relationship: _____

If Section I-G answered yes, proceed to Section IV without completing Sections II and III.

II Project Description

- A. Describe the type of project and the project's physical characteristics (submit plans when appropriate). Include information on proposed scheduling and any associated projects or anticipated incremental developments.
1. If residential, specify the number of units, the type of units, schedule of unit sizes, parking facilities, range of sale prices or rents, type of household and household size expected, and proportion of project area devoted to building structures, landscaping, open space, and parking.
 2. If commercial, specify the type of development, the breakdown of square footage by sales, office, and storage area, number of employees, parking and loading facilities, and proportion of project area devoted to structures.
 3. If industrial, specify the type, estimated employees per shift, parking and loading facilities, and proportion of project area devoted to structures.
- B. Discuss any items below which might be applicable to the proposed project, indicating how and to what extent each is applicable (attach additional sheets if necessary).
1. Change or substantial increase in pedestrian or vehicular traffic patterns in the vicinity.
 2. Change in the existing noise or vibration levels in the vicinity.
 3. Change in ground water quality or quantity or in an alteration of existing drainage patterns.
 4. Substantial alteration of ground contours.
 5. Significant effects on plant or animal life in the surrounding area.
 6. Changes or restriction of views from existing residential areas, public lands, or roads.
 7. Extension of existing public utility lines or public improvements.
 8. Impact on public facilities, such as libraries, schools, parks, fire and police protection, other.
 9. Induced impact on other private services such as existing stores, health facilities, new developments.
 10. Relocation of people or business in order to permit the construction of proposed project.
