

RESOLUTION NO. 23-32

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF DALY CITY
AUTHORIZING EXECUTION OF CONSTRUCTION CONTRACT WITH
MAGGIORA BROS. DRILLING, INC., FOR THE CONSTRUCTION, DEVELOPMENT
AND TESTING OF THE MARGATE WELL

A. Staff recommends that the City Council all bids received, waive any minor inconsistencies, and authorize staff to contract with Maggiora Bros. Drilling, Inc., for the Construction, Development, and Testing of a new drinking water well at Margate Street for the bid cost of \$1,512,400 and a 15% contingency amount of \$227,000. Total not to exceed amount would be \$1,739,400.

B. Groundwater is a critical source of drinking water for the City of Daly City, meeting approximately 40% to 50% of the customer demand for potable water. The City currently operates and maintains four wells that pump about 2 million gallons of water per day from a groundwater aquifer that is below San Francisco, Daly City, South San Francisco, and San Bruno. This aquifer, called the Westside Groundwater Basin, is closely managed by agreement among the four agencies, each of which has rights to pump from it. Currently, Daly City does not have any wells outside of the Westside Groundwater Basin.

C. In 2022, during one of the most severe droughts ever recorded in California, the City received an American Rescue Plan Act (ARPA) allocation of \$2,000,000 to begin funding the New Well at Margate Street Capital Project. The City selected the engineering firm of Brown and Caldwell to design this new well, and plans were accelerated with a target to begin construction in 2023. The design bid package for Construction, Development and Testing of the Margate Well was advertised and two bids were received. Staff recommends selecting the lowest responsible bid from Maggiora Bros. Drilling, Inc.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Daly City, that it does hereby accept all bids received, waive any minor inconsistencies, and authorize staff to contract with Maggiora Bros. Drilling, Inc., for the Construction, Development, and Testing of a new drinking water well at Margate Street for the bid cost of \$1,512,400 and a 15% contingency amount of \$227,000. Total not to exceed amount would be \$1,739,400.

BE IT FURTHER RESOLVED by the City Council of the City of Daly City that it does hereby find that the Construction, Development, and Testing of a new drinking water well at Margate Street Project is categorically exempt under CEQA.

BE IT FURTHER RESOLVED by the City Council of the City of Daly City that it does hereby find that any minor omissions in the bid proposals are non-substantive and are waived by the City Council.

BE IT FURTHER RESOLVED by the City Council of the City of Daly City that the plans and/or design of the public works project so awarded have been reviewed and considered by the City Council and are determined to be reasonable for the purpose or purposes they serve.

BE IT FURTHER RESOLVED by the City Council of the City of Daly City that if the awarded bidder fails to execute the agreement or to meet the General Conditions and Standard Specifications and specific requirements of this public works project, then and in that event, the City Manager or designee may, without further action of this City Council, award the contract to the next lowest responsible bidder.

I hereby certify the foregoing to be a true copy of a Resolution adopted by the City Council of Daly City, California, at a regular meeting thereof held on the 13th day of February, 2023, by the following vote of the members thereof:

AYES, and in favor thereof, Councilmembers: Daus-Magbual, DiGiovanni,

Manalo, Sylvester, Buenaventura

NOES, Councilmembers: None

Absent, Councilmembers: None

CITY CLERK OF THE CITY OF DALY CITY

APPROVED:

RAYMOND A. BUENAVENTURA
MAYOR OF THE CITY OF DALY CITY
